

## Directions for Using Video Tracking Chart

This chart is designed to use with the following blog post - [17 Inspiring Picture Books for Elementary Music Teachers](https://fraumusik.com/17-inspiring-picture-books-for-elementary-music-teachers/) posted on [fraumusik.com](https://fraumusik.com).

### Directions for Use as Emergency Sub Plans

- Bookmark and insert the link below into your emergency sub plans.  
<https://fraumusik.com/video-picture-books-for-music-teachers/>
- Download and print the chart on the next page to keep track of which classes have viewed which video stories. If needed, print multiple pages.
- Write in the abbreviation for each class in the top gray row, i.e, 1-A,1-B, etc.

Many of these storybooks are best suited for either the early elementary or the upper elementary grades. If desired, shade in the boxes for the grades you do NOT want a sub to use a specific video with. Place the chart in your sub folder.

When a class views a video, instruct subs to write the date in the corresponding cell for each video.
